DISCOVER THE ENHANCED FEATURES OF OUR DISPLAY COUNTER

We use copper cooling coils in our systems, ensuring efficient heat dissipation and superior corrosion resistance for enhanced durability. Additionally copper aluminum end plates on the coils minimize the risk of rust, extending the lifespan and performance of our refrigeration units

At our company, we utilize top-tier compressors like Emerson, Tecumseh, and Embraco to ensure optimal performance and reliability in our display counters. These trusted brands help us deliver consistent quality and efficiency in every product we offer.

We use AISI 304 18/10 high-quality stainless steel from Jindal (JSL) in various thicknesses, with a preference for virgin steel. Our products are finished with a sleek PVC-No 4. Its stability guarantees good-looking and durable products, ensuring maximum hygiene and corrosion resistance over time.

Our Compact power supplies by meanwell, ranging from 35W to 600W, offer efficient performance with 300VAC input surge protection and full safety certifications. Our power supplies are designed for durability and reliable performance in demanding applications.

High-quality equipment is marked by a certain level of quality.
Keep your Area running smoothly with our reliable freezer solutions.
Our equipment stands out for its combination of convenience and energy efficiency.

ZIGeLABEL

MAKE IN INDIA

As per FSSAI regulations of Food Safety and Standards

(Labelling and Display) Regulations, 2020. Starting October 2023 mentioning "Best before date" & "Date of manufacture" will be mandatory.

ELECTRONIC SHELF LABEL (ESL)

Advantages

- Innovation Signage
- Long operating life (about 5yrs battery life)
- Low power up-to-date information centrally controlled
- Attractive and modern appearance

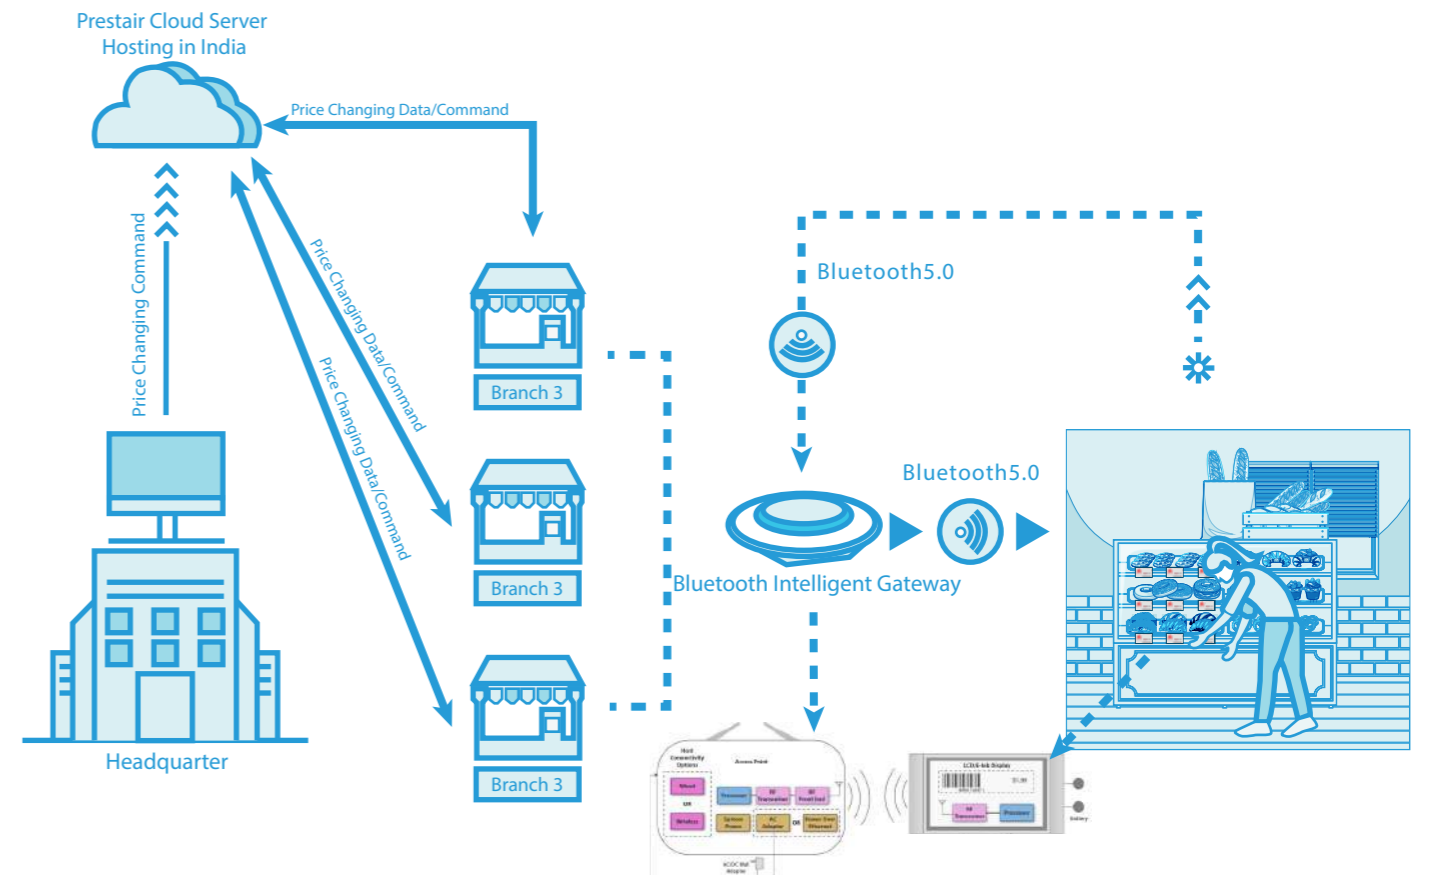

Applications

- Sweets & Bakery Retail
 - a) Dynamic Pricing
 - b) Date of Manufacturing/Expiry
 - c) Discount Scheme

Appearance

- Ultra-thin case (5 mm)
- Impact-resistant and waterproof
- Screen size 2.9"
- Dot-matrix or segment E-papers clear display
- Snap structure

- REQUIREMENT FOR A SHOP
- ESL (APPROXIMATELY 200 PC)
 - AP DEVICE
 - INTERNET CONNECTION (WIFI OR LAN)
 - LAPTOP OR DESKTOP

SPECIFICATION

- E-Ink
- Color option: black and white, and red color
- Screen size 2.9"
- High-resolution displays for clear readability
- Connectivity WI-FI
- Battery life typically 3-5 years, depending on usage and display size
- Fast updates, usually within seconds
- Operating temperature from 0 to 50°C
- Cloud server hosting in India
- Branding option for retailers and Sweets/Bakery shop

The benefits of modern electronic shelf labels are wide-ranging, and both retailers and customers are the recipients of such benefits. ESLs automate often time consuming tasks for retailers, while ensuring improved pricing accuracy and shopping convenience for customers.
